Wireframe - Frank Riggio

Breakpoint: < or = 479px

Header contains only the webite title and nav links, header image removed due to smaller viewig window. Allows for better fit of website title and links.

H1 header title

Link   Link

Link   Link

Links displayed in 2x2 grid to prevent them from getting cut off of the smaller viewing window and to prevent any side scrolling to look for them.

NO IMAGE TEXT FOR THIS BREAKPOINT

Image of St. Louis

No text is overlayed onto image in order to make the image look nicer on a smaller screen and to reduce screen clutter. Image width is at 100%.

H2 Article Header

Background changed to white to provide contrast or mobile viewers who may be viewing it outside. Font size increased compared to other break points to make the information easier to read on mobile, and extra line spacing added for the same reason. Padding removed from p elements to prevent them from getting cut off the screen.

Article p 1

Article p 2

Font size decreased in the footer to accomodate all the necessary text.
